INDEX TO VOLUME XII

GENERAL ALPHABETICAL INDEX

Entries from the Synopsis of Periodical Literature are indicated by S. (Synopsis); from the Analysis of Current Electrochemical, Chemical and Metallurgical United States Patents by P. (Patents); from the Digest of Electrochemical United States Patents Prior to July, 1902, by D. (Digest).

A

ABBE Engineering Co..... 200
Abbe, P. O..... 347
Abrasives. Allen. (P.)..... 533
Accountants. Cost accounting and the work of. Haynes.....449, 614
——Ashby 549
ACID:
——Orthophtalic. Solubility. Rivett and Rosenblum 14
——Phosphoric. Haff (P.)..... 65
—— From Phosphate Rock. Washburn (P.)..... 533
——Sulphuric. Contact process. Rittman 476
—— From smelters..... 440
—— Removal of Arsenic..... 353
—— Towers. Schliebs. (S.)..... 655
Acid-resisting Alloy. Gleason. (P.)..... 352
Acid tanks. Mastic lining..... 353
Addicks, Lawrence..... 425
Æsop at Niagara Falls.....71, 214
Agriculture and Chemistry. Baekeland.. 564
Air Compressor. Nash..... 423
Air valves..... 232
Alaska. Development 394
Alaska Gold Company.....248, 460
Alaska: Southeastern. Advantages for hydro-electrochemical industries. Lass. 337
Alby United Carbide Factories..... 34
ALLOYS:
——Acid-resisting. Gleason. (P.)..... 352
——Aluminium. McAdams. (P.)..... 352
——Binary. Rapid Cooling. Gulliver. (S.) 595
—— Argental and macademum..... 360
—— Ormiston 649
——Babbitt Metal. Determination of Copper 753
——Bronze. Dewrance. (S.)..... 594
——Bronze. Three-metal Blow..... 461
——Bureau of Standards Analyzed Brass Samples 80
——Copper - Aluminium. Read and Greaves. (S.) 595
——Copper-Rich Kalchoids. Hoyt..... 30
——Copper, Tin and Zinc. Hoyt..... 644
——Definition. Thatcher..... 430
——German Silver. Metallography. Thompson 785
——Gun Metal. Effect of temperature.. 597
——Heating in Vacuo. Thorneycroft and Turner 787
——Iron and Steel. Hadfield..... 598
——Iron-Nickel-Copper. Clamer. (P.).. 413
——Manganese Bronze. Corse..... 113
——Manganese bronze. Skillman and Corse 113
——Melting points of copper alloys..... 103
——Muntz Metal. Stead and Stedman. (S.) 596
ALLOYS: (Continued.)
——Platinum and tungsten and molybdenum. Weintraub..... 475
——Pyrophoric. Faehr. (P.)..... 660
—— Patent Decision..... 218
——Tungsten and Nickel. Kressler. (P.) 728
Alumina. Determination in iron ores. Wurzel 430
ALUMINIUM:
——Alloys argental, macadamum..... 360
——Alloy. McAdams. (P.)..... 352
——Alloy. Ormiston..... 649
——Alloys with Copper. Read and Greaves. (S.)..... 595
——Calorizing 730
——Density. Brislee..... 14
——Electroplating upon. Loeb, Mies. (D.) 800
——Light Strong Castings..... 619
——Ore production..... 290
——Precipitant for Cyanide Solutions. Butters. (S.) 351
——Purifying. Mellen. (P.)..... 352
——Solder. (P.).....66, 352
——Wire. Electrolytic insulation. Chubb and Skinner..... 712
Alundum. High-Temperature Resistivity. Northrup 125
Amalgamating in cyanide solutions. Randall 248
——See also Gold and Silver.
Amalgams of Sodium. Electric Conductivity. Nanstone..... 14
Amberg, Dr. Richard..... 485
American Bottle Company..... 446
American Bridge Co.....165, 355
American Chemical Society.....360, 494
——Montreal Meeting Postponed..... 550
——New York Section. Chemical and Dyestuff Committee Report..... 753
American Clay Company..... 440
American Cyanamid Company. Niagara Works 265
American Electrochemical Society..221, 368, 419, 514, 619
——New York meeting. Report..... 327
——Niagara Falls Convention. Report.. 703
——New York Section..... 419
American Foundrymen's Association..... 550
——Chicago Convention..... 641
American Gas Institute. Chemical Section 677
American Institute of Chemical Engineers. New York meeting..... 55
——Philadelphia Meeting..... 756
——Troy Meeting.....376, 434
American Institute of Metals.....550, 588
——Chicago Convention..... 641
American Institute of Mining Engineers.. 189, 296, 304, 366, 416, 514
——Utah Meeting..... 589
American Iron and Steel Co..... 62
American Peat Society..... 788
American Platinum Works..... 360
American Rapid Cyaniding Co..... 734
American Rolling Mill Co..... 424
American Smelting & Refining Co..194, 212, 288
American Zinc, Lead & Smelting Co..... 432
AMMONIA:
——Analysis. Stach. (S.)..... 655
——From Calcium Cyanamide. Cooper. (P.) 480
——From Coal Gas..... 699
——Synthesis 477
——Ammonia process for zinc and copper ores. Bretherton. (P.)..... 139
——Ammonia soda process. Theory. Mason 571
Anaconda Copper Mining Co..... 432
Anaconda-International Consolidation..... 366
Anaconda. Model Town..... 618
Anaconda. Progress in Metallurgy..... 737
Analcid Method..... 793
ANALYSIS:
——Ammonia. Stach. (S.)..... 655
——Analoid Method..... 793
——Calorimetric of Gold in Cyanide Solutions 460
——Carbon in iron and steel. Brown 390
——Chromium in iron and steel. Walters. 310
——Coal in U. S..... 62
——Copper in Babbitt Metal. Hagmaier. 753
——Electrometric titration. Ziegel..... 705
——Fine-meshed Brass Gauge as Substitute for Platinum in Electro-analysis 87
——Gas 677
——Gold and Platinum Assay. (S.)..... 480
——Grading by Elutriation. Stadler. (S.) 536
——Lead determination at Broken Hill. (S.) 54
——Natural gas. Brown..... 168
——Nickel. Marsh..... 709
——Phosphorus in phosphor bronze. Hagmaier 524
——Phosphorus in Scheelite Concentrates. Hagmaier 620
——Radium. Schlundt..... 709
——Silica and alumina in iron ores. Wurzel 430
——Tin Ores and Concentrates.
—— Hutchin. (S.)..... 350
—— Wraight and Teed. (S.)..... 350
——Zinc determinations at Broken Hill.. 138
——Zinc in Bronze Coins. Rose..... 326
Annealing Brass and German Silver Wire. 483
Annealing malleable castings. Storey... 383
Anticorrosion lead oxide deposit (D.)... 543
Anticorrosive Magnetic Oxide Deposit. 425, 736
Anti-Corrosive Pickling Chains and an Acid-pump Casting..... 206
Antimony. Metallurgy. Cowan..... 643
Anyox Smelter..... 676
Apparatus for Determining the Hardness of Metals by the Brinell Method. 205

——Zinc determinations at Broken Hill.. 138
——Zinc in Bronze Coins. Rose..... 326
Annealing Brass and German Silver Wire. 483
Annealing malleable castings. Storey... 383
Anticorrosion lead oxide deposit (D.)... 543
Anticorrosive Magnetic Oxide Deposit. 425, 736
Anti-Corrosive Pickling Chains and an Acid-pump Casting..... 206
Antimony. Metallurgy. Cowan..... 643
Anyox Smelter..... 676
Apparatus for Determining the Hardness of Metals by the Brinell Method. 205

Chem-Eng. Wilson

Appleby, William R. 735
Arc light with unconsumed electrodes. Vosmaer 377
Argental 360
Arizona Copper Co....34, 104, 222, 269, 684
Arizona Copper Smelter. Unit Construction Cost. Jones. (S.)..... 653
Arizona. New Copper Smelter..... 11
Arms and the Man..... 488
Arsenic. Removal from sulphuric acid.. 353
Asbestos. Uses in Chemistry and Metallurgy 356
Ashland Fire Brick Co..... 580
Askenasy, Prof. Paul..... 485
Atomic Weight. Indefiniteness. Fajans and Hönigschmid..... 495
Atomic Weight of Lead..... 487
Atom. Structure, and high-frequency spectra 363
Auld Company..... 541
Aurora Consolidated.....493, 556
Austin, A. Obituary..... 542
Austin, J. F..... 542

B

BABBITT metal. Determination of Copper. Hagmaier 753
Badger & Sons Co., E. B..... 360
Badger Chemical Diary..... 360
Bag House in Lead Metallurgy. Anderson. (S.) 654
Backeland, Leo H..... 541
Baer, W. P..... 426
Bailey, Gilbert E..... 475
Baily, T. F..... 141
Bakelite for Commutator Insulation.... 603
Baker & Co..... 360
Baker Suspension Bin 120
Bamberger, Ernst 799
Bancroft, W. D. Portrait..... 335
Barber Asphalt Paving Co..... 258
Baron, H. J..... 799
Barrows 46
Baryte in California..... 722
Barytes. Separation from Zinc Blende. Greenstreet. (P.) 659
Bath processes for wood waste. Teeple.. 35
Battery. Railway Track Cell. Marshall.. 342
Bayonne Bolt & Nut Company..... 482
Beer. Chill-proof. Patent suit..... 80
Benzol from Coal Gas..... 702
Bethlehem Steel Company..... 306
Bicarbonate of soda and sawdust for extinguishing fires 105
Biddle Hardware Co..... 68
Bins for blast furnaces. Design..... 117
Bin. Suspension Storage. McKee..... 605
Bismuth from Copper. Thum. (P.)..... 479
Bismuth. Nitric Acid Treatment..... 583
Bitumen and electric mains explosions.... 80
Blair, Robert S..... 735
Blake, Lucien I..... 541
BLAST FURNACE:
